**THE 2022**  
**POLICY GUIDE**

**Read this and you will  
understand why  
The Establishment  
wants to hide  
Mark Pukita from you.**

# **Are you sick of Republican SWAMP, RINO façades in Ohio?**

Read my comprehensive policy guide, across 21 areas, and see why The Establishment does not want you to know about me: because when you read it, you will join me in questioning why we settle for such mediocre senators from Ohio. We can do better. We can "Beat the SWAMP!"

- Allow and promote market-driven medical options (ex: HSAs) that foster price competition in health services.

# 8

## Business & Trade

- Reverse regulations that have pushed manufacturing out of the US and Ohio.
- Fight crony capitalism and regulation that protects insiders from competition.

- End regulations that force use to foreign suppliers (like light bulbs, solar panels, and electric car batteries).

# 9

## Firearm Rights & Hunting

- National constitutional carry because the 2nd Amendment gives us that right.
- Bring back Teddy Roosevelt-style conservation to open up more hunting.

# 10

## Lifestyle & Family Issues

- Get kids out of horrible environments where, for example, an orphanage would be better.
- Restore the role of parents and demand parents take responsibility.

## Life Issues

- Pass a national heartbeat bill.
- Parents, not bureaucrats, making life decisions involving their minor children.
- Recognize pro-life as the civil rights issue of our day that is literally as big a civil rights issue as was slavery.
- End scientifically dangerous medical treatments at inappropriate ages.

# 12

## Taxes

- Quit printing money like Venezuela.
- Move to a flatter tax model that is simpler and fairer for all.
- Reverse tax policies that cause companies to keep profits out of the U.S.
- Restore fiscal responsibility by reducing spending 1% per year for at least 10 years.

## Land & Interior

# DISRUPT Agenda

**D**EFEND America from enemies, both foreign and domestic.

**I**NSTALL values in education to create a great next generation of Americans of all races and creeds.

**S**AVE personal liberty.

**R**ESTORE morality and ethics with an all-out attack on the SWAMP, deep state and big tech.

**U**NITE all in an "America First" vision from Washington DC to Main Street.

**P**ROTECT government of, for, and by the people starting with our elections.

**T**RANSFORM a government culture of entitlement, endless expansion, waste, fraud, abuse, and dependency.

# **MARK ON OTHER ISSUES**

Mark wants to be absolutely clear on a few last things:

1. We need congressional term limits.
2. Rob Portman has done a terrible job for Ohio.
3. The election was stolen from Donald Trump.
3. No to force and mandates on COVID-19.
4. The Ohio Republican Party is corrupt and needs reform.
5. If we keep electing the same types of people, we will get the same terrible results.

# MEET MARK PUKITA

Mark did not marry into money. He did not find wealth in venture capital schemes. He built jobs and propelled the success of countless small, mid-sized, and large businesses. He came from humble, lower working-class roots but, unlike others in the Senate race, he never walked away from his working-class values.

Mark grew up on the east coast and moved to Ohio in 1976. He has a degree with honors from The Ohio State University. Mark lives in Dublin, is a proud grandparent to two grandsons, and wants Ohio families to be proud to raise their children and grandchildren here.
